PRATIBHA PATEL

MERN Full Stack Developer

With Agentic AI, Generative AI and DevOps expertise

Email: pratibhapatel654321@gmail.com | **Mobile**: 6260001094

Professional Summary

MERN Full Stack Developer with more than **3 years of work experience,** specializing in the **MySQL, MongoDB, Express.js, React.js, Node.js, Next.js, AWS services, GIT, Docker, CICD, Payment Gateway, Agentic AI, Generative AI, Software engineering, Micro Services etc.** Strong expertise in **authentication (JWT), third-party API integrations,** and **performance optimization**. Passionate about writing clean, maintainable code and delivering high-quality projects.

Experience

MERN Full Stack Developer(MERN + AI + DevOps),
Micro Technologies | Oct 2023 – Present

- Developed and maintained scalable full-stack web applications **using React.js, Node.js, and MongoDB, MySQL.**
- Designed and implemented intuitive user interfaces using **Tailwind CSS, Material UI, and Figma**.
- Streamlined authentication workflows using **JWT**, ensuring secure user sessions and data protection.
- Built RESTful APIs and optimized API performance through effective database query handling.
- Automated build, testing, and deployment processes using **Docker** and **CI/CD pipelines**.
- Integrated third-party services such as **Twilio, Razorpay**, and **Node Mailer** to enhance application functionality.
- Collaborated with cross-functional teams to ensure high-quality deliverables within tight deadlines.
- Supported the development of a key company product by writing modular, reusable, and scalable code.
- Gained hands-on experience in cloud deployment using **AWS** and **version control with Git**. Tested and debugged APIs using **Postman** and **Swagger**.

Technical Skills

- **Design Tools**: Figma
- **Frontend**: HTML, CSS, Bootstrap, Tailwind CSS, Material UI, Ant Design, JavaScript, TypeScript, React.js, Next.js, Redux, Redux-Toolkit, Google chart, React chart
- **Backend**: Node.js, Express.js
- **Database**: MySQL, MongoDB, Redis
- **Authentication**: JWT
- **Version Control**: Git, GitHub
- **Cloud Services**: AWS (EC2, S3, RDS, SNS, Amplify, Load Balancer, IAM, Autoscaling)
- **DevOps**: Docker, CI/CD Pipelines
- **API Testing**: Postman, Swagger, Thunder Client
- **Third-Party Services**: Twilio, Send Grid
- **AI Services**: AI Integration, Generative AI, Agentic AI
- **Payment Gateway**: Razorpay, Stripe

Education

Bachelor of Science in Mathematics, Computer Science
Barkatullah University (BU), Bhopal
Graduation Year: 2022

Projects

1. TechHub | E-LEARNING PLATFORM (MERN Stack)

- Designed a digital learning system with features like video courses, quizzes, and progress tracking
- User roles: Admin, Teacher, Student
- Stack: **React.js, Node.js, MySQL, Express.js**
- Integrated secure login with **JWT**, video uploading with **AWS S3**, and notifications with **NodeMailer**
- Created RESTful APIs for course management and enrolled user tracking

2. eBazar | E-COMMERCE PLATFORM

- Multi-role platform for **Admin, Retailers, and Customers**
- Developed product listing, cart, payment gateway, and order management features
- Frontend:**React, Tailwind CSS, Material UI** | Backend: **Node.js, MongoDB, Express.js**
- Dockerized and deployed on **AWS EC2** with **CI/CD integration**

3. Nestora | REAL ESTATE PLATFORM

- Built a property listing and booking platform for agents and buyers
- Features included: property search with filters, image uploads, map integration, user authentication
- Stack: **MySQL, Express.js, React.js, Node.js**
- Used **JWT** for auth, **AWS S3** for image uploads, and **Docker** for deployment
- Implemented role-based access and REST APIs for property management
